CUMULATIVE INDEX

Vol. 22 (1988), Issues 1-12

Analysis and Measurement
Avoiding Phase-Measuring Interferometry's Pitfalls (Chris L. Koliopoulos); Oct. 1988 (22:10), p. 169.
FT/IR Spectrum Analyzers Go On-Line (see Photonics at Work).
NASA Plans Photonics Measurements for Microgravity (see Photonics at Work).
Optical Waveform Analysis: A Practical and Powerful Approach (Brian Boso); May 1988 (22:5), p. 153.
Photonics Instruments Make New Inroads on the Shop Floor (see Photonics Industry).
Spectroscopy Mini-Magazine; Feb. 1988 (22:2), p. 69.

At-A-Glance Guides
Fiber Optic Transmitter/Receivers, Part One ; June 1988 (22:6), p. 143.
Fiber Optic Transmitter/Receivers, Part Two; July 1988 (22:7), p. 145.
Fiber Optic Transmitter/Receivers, Part Three; Aug. 1988 (22:8), p. 130.
Nd:YAG and Nd:Glass Lasers, Part One; Feb. 1988 (22:2), p. 123.
Nd:YAG and Nd:Glass Lasers, Part Two; Mar. 1988 (22:3), p. 141.

Coatings
Computer Software for Optical Coatings (Philip Baumeister); Sept. 1988 (22:9), p. 143.
Opening New Doors to Optical Conductive Coatings (Clark Bright); Mar. 1988 (22:3), p. 131.
Selection of Evaporation Coating Materials, The (Stephen M. McNally, Martin Friz, Friedrich Koenig); Sept. 1988 (22:9), p. 157.
Thin Films: New Medical Detectives (John Hanlin); Feb. 1988 (22:2) p. 113.

Designer's Handbook
Bandwidth Measurement in High-Speed Fiber Optic Links (Brian K. Garside); Oct. 1988 (22:10), p. 85.
Comparing Beam-Deflecting Systems, Part I (Randy J. Sherman); Mar. 1988 (22:3), p. 89.
Comparing Beam-Deflecting Systems, Part II (Randy J. Sherman); Apr. 1988 (22:4), p. 91.
Designing Integrated Optics for Foundry Fabrication (John Nightingale, Bob Carlson); July 1988 (22:7), p. 71.
High-Resolution OTDR Measurements (Brian K. Garside); Sept. 1988 (22:9), p. 79.
Integrated Optics: Foundry Design Example (John Nightingale); Aug. 1988 (22:8), p. 85.
Solving Medical Problems Part One, (Norman Goldblatt); Jan. 1988 (22:1), p. 71.
Solving Medical Problems, Part Two (Norman Goldblatt); Feb. 1988 (22:2), p. 65.
Spatial Resolution: A Key to Machine Vision Success (David Schatz); June 1988 (22:6), p. 71.
Specifying Optical Components for Infrared Systems (Brian D. Cohn, Robert Fischer); Dec. 1988 (22:12), p. 71.
Systems Specifications for IR Optical Systems (Brian D. Cohn, Robert Fischer); Nov. 1988 (22:11), p. 73.
Three-Dimensional Machine Vision (Dr. Leonard H. Bieman); May 1988 (22:5), p. 81.

Detectors
Detector Mini-Magazine; July 1988 (22:2), p. 85.
New Strides in Photodetectors (Dennis L. Mattock, Roger W. Forrest); May 1988 (22:5), p. 141.
New Wave in Photomultipliers, The (Daniel Thoman); Sept. 1988 (22:9), p. 151.

Editorial Comment
And Now the Tough Decisions; Nov. 1988 (22:11), p. 12.
Another Poor Report Card; Oct. 1988 (22:10), p. 14.
Common Sense in Space; Mar. 1988 (22:3), p. 12.
Crooked Military Procurement; July 1988 (22:7), p. 12.
Divvying up the Science Dollars; June 1988 (22:6), p. 14.
Heating Up Our Greenhouse; Aug. 1988 (22:8), p. 14.
Our Low Marks in Science; Apr. 1988 (22:4), p. 12.
Promising Partnership, A; Jan. 1988 (22:1), p. 12.
Rx for Competitive Blahs; Feb. 1988 (22:2), p. 14.
Science at the White House; May 1988 (22:5), p. 14.
Science in an Election Year; Sept. 1988 (22:9), p. 12.
Shooting Ourselves in the Foot; Dec. 1988 (22:12), p. 12.

Fiber Optics/Communications
Bandwidth Measurement in High-Speed Fiber Optic Links (see Designer's Handbook).
Coherent Communications: Waves of the Future (Staff Report); Oct. 1988 (22:10), p. 133.
Connectors: The Key to LAN Success (Paul Slaney, Pat Whalen); May 1988 (22:5), p. 121.
Fiber Optic Intensity Sensors: Commercial Hardware for Industrial Applications (J.W. Berthold); Dec. 1988 (22:12), p. 125.
Fiber Optic Standards: More Than Technology (see Washington Desk).
Fiber Optic Transmitter/Receivers, Part One (see At-a-Glance Guides).
Fiber Optic Transmitter/Receivers, Part Two (see At-a-Glance Guides).
Fiber Optic Transmitter/Receivers, Part Three (see At-a-Glance Guides).
Fiber Optics: From the Doldrums to the Future (see Washington Desk).
Fiber Optics Mini-Magazine; May 1988 (22:5), p. 93.
Fiber Optics Mini-Magazine; Sept. 1988 (22:9), p. 101.
Fibers in Medicine: From Light to Lasers (Walter Siegmund); Nov. 1988 (22:11), p. 109.
High-Resolution OTDR Measurements (see Designer's Handbook).
IR Fiber Application Update (Charles T. Troy); July 1988 (22:7), p. 79.
Linking LANs with Fiber: Cost and Other Factors (Norman T. Friedrich); Sept. 1988 (22:9), p. 89.
Long-Wavelength IR Fiber Optics (See Photonics at Work).
New Approaches to Termination (R. Patrick Drexel, James A. Nelson, John Schnecker); Mar. 1988 (22:3), p. 101.
New Fibers Meet Sensing Demands (John F. Wahl); Dec. 1988 (22:12), p. 79.
New Transatlantic Cables to Quadruple Capacity (see Insights & Enterprise).
One Fiber Optic Company Sees the Light (see Insights & Enterprise).
Polarization Preserving Fiber and Sensors (Roger J. Brambley); Apr. 1988 (22:4), p. 99.
Rad-Hard Fibers for Space and the Military (Bolesh J. Skutnik); Aug. 1988 (22:8), p. 91.
Second Generation of Field Test Equipment for Fiber Optics, A (Rutesh Parikh, Brad Wendland, Hal Halpern); Feb. 1988 (22:2), p. 103.
1988 Technology Trends: Fiber Optics; Jan. 1988 (22:1), p. 89.

Holography
Novel Applications for Holographic Gratings (see Technology Trends).
1988 Technology Trends: Holography; Jan. 1988 (22:1), p. 113.

CUMULATIVE INDEX

Vol. 22 (1988), Issues 1-12

Analysis and Measurement
Avoiding Phase-Measuring Interferometry's Pitfalls (Chris L. Koliopoulos); Oct. 1988 (22:10), p. 169.
FT/IR Spectrum Analyzers Go On-Line (see Photonics at Work).
NASA Plans Photonics Measurements for Microgravity (see Photonics at Work).
Optical Waveform Analysis: A Practical and Powerful Approach (Brian Boso); May 1988 (22:5), p. 153.
Photonics Instruments Make New Inroads on the Shop Floor (see Photonics Industry).
Spectroscopy Mini-Magazine; Feb. 1988 (22:2), p. 69.

At-A-Glance Guides
Fiber Optic Transmitter/Receivers, Part One ; June 1988 (22:6), p. 143.
Fiber Optic Transmitter/Receivers, Part Two; July 1988 (22:7), p. 145.
Fiber Optic Transmitter/Receivers, Part Three; Aug. 1988 (22:8), p. 130.
Nd:YAG and Nd:Glass Lasers, Part One; Feb. 1988 (22:2), p. 123.
Nd:YAG and Nd:Glass Lasers, Part Two; Mar. 1988 (22:3), p. 141.

Coatings
Computer Software for Optical Coatings (Philip Baumeister); Sept. 1988 (22:9), p. 143.
Opening New Doors to Optical Conductive Coatings (Clark Bright); Mar. 1988 (22:3), p. 131.
Selection of Evaporation Coating Materials, The (Stephen M. McNally, Martin Friz, Friedrich Koenig); Sept. 1988 (22:9), p. 157.
Thin Films: New Medical Detectives (John Hanlin); Feb. 1988 (22:2) p. 113.

Designer's Handbook
Bandwidth Measurement in High-Speed Fiber Optic Links (Brian K. Garside); Oct. 1988 (22:10), p. 85.
Comparing Beam-Deflecting Systems, Part I (Randy J. Sherman); Mar. 1988 (22:3), p. 89.
Comparing Beam-Deflecting Systems, Part II (Randy J. Sherman); Apr. 1988 (22:4), p. 91.
Designing Integrated Optics for Foundry Fabrication (John Nightingale, Bob Carlson); July 1988 (22:7), p. 71.
High-Resolution OTDR Measurements (Brian K. Garside); Sept. 1988 (22:9), p. 79.
Integrated Optics: Foundry Design Example (John Nightingale); Aug. 1988 (22:8), p. 85.
Solving Medical Problems Part One, (Norman Goldblatt); Jan. 1988 (22:1), p. 71.
Solving Medical Problems, Part Two (Norman Goldblatt); Feb. 1988 (22:2), p. 65.
Spatial Resolution: A Key to Machine Vision Success (David Schatz); June 1988 (22:6), p. 71.
Specifying Optical Components for Infrared Systems (Brian D. Cohn, Robert Fischer); Dec. 1988 (22:12), p. 71.
Systems Specifications for IR Optical Systems (Brian D. Cohn, Robert Fischer); Nov. 1988 (22:11), p. 73.
Three-Dimensional Machine Vision (Dr. Leonard H. Bieman); May 1988 (22:5), p. 81.

Detectors
Detector Mini-Magazine; July 1988 (22:2), p. 85.
New Strides in Photodetectors (Dennis L. Mattock, Roger W. Forrest); May 1988 (22:5), p. 141.
New Wave in Photomultipliers, The (Daniel Thoman); Sept. 1988 (22:9), p. 151.

Editorial Comment
And Now the Tough Decisions; Nov. 1988 (22:11), p. 12.
Another Poor Report Card; Oct. 1988 (22:10), p. 14.
Common Sense in Space; Mar. 1988 (22:3), p. 12.
Crooked Military Procurement; July 1988 (22:7), p. 12.
Divvying up the Science Dollars; June 1988 (22:6), p. 14.
Heating Up Our Greenhouse; Aug. 1988 (22:8), p. 14.
Our Low Marks in Science; Apr. 1988 (22:4), p. 12.
Promising Partnership, A; Jan. 1988 (22:1), p. 12.
Rx for Competitive Blahs; Feb. 1988 (22:2), p. 14.
Science at the White House; May 1988 (22:5), p. 14.
Science in an Election Year; Sept. 1988 (22:9), p. 12.
Shooting Ourselves in the Foot; Dec. 1988 (22:12), p. 12.

Fiber Optics/Communications
Bandwidth Measurement in High-Speed Fiber Optic Links (see Designer's Handbook).
Coherent Communications: Waves of the Future (Staff Report); Oct. 1988 (22:10), p. 133.
Connectors: The Key to LAN Success (Paul Slaney, Pat Whalen); May 1988 (22:5), p. 121.
Fiber Optic Intensity Sensors: Commercial Hardware for Industrial Applications (J.W. Berthold); Dec. 1988 (22:12), p. 125.
Fiber Optic Standards: More Than Technology (see Washington Desk).
Fiber Optic Transmitter/Receivers, Part One (see At-a-Glance Guides).
Fiber Optic Transmitter/Receivers, Part Two (see At-a-Glance Guides).
Fiber Optic Transmitter/Receivers, Part Three (see At-a-Glance Guides).
Fiber Optics: From the Doldrums to the Future (see Washington Desk).
Fiber Optics Mini-Magazine; May 1988 (22:5), p. 93.
Fiber Optics Mini-Magazine; Sept. 1988 (22:9), p. 101.
Fibers in Medicine: From Light to Lasers (Walter Siegmund); Nov. 1988 (22:11), p. 109.
High-Resolution OTDR Measurements (see Designer's Handbook).
IR Fiber Application Update (Charles T. Troy); July 1988 (22:7), p. 79.
Linking LANs with Fiber: Cost and Other Factors (Norman T. Friedrich); Sept. 1988 (22:9), p. 89.
Long-Wavelength IR Fiber Optics (See Photonics at Work).
New Approaches to Termination (R. Patrick Drexel, James A. Nelson, John Schnecker); Mar. 1988 (22:3), p. 101.
New Fibers Meet Sensing Demands (John F. Wahl); Dec. 1988 (22:12), p. 79.
New Transatlantic Cables to Quadruple Capacity (see Insights & Enterprise).
One Fiber Optic Company Sees the Light (see Insights & Enterprise).
Polarization Preserving Fiber and Sensors (Roger J. Brambley); Apr. 1988 (22:4), p. 99.
Rad-Hard Fibers for Space and the Military (Bolesh J. Skutnik); Aug. 1988 (22:8), p. 91.
Second Generation of Field Test Equipment for Fiber Optics, A (Rutesh Parikh, Brad Wendland, Hal Halpern); Feb. 1988 (22:2), p. 103.
1988 Technology Trends: Fiber Optics; Jan. 1988 (22:1), p. 89.

Holography
Novel Applications for Holographic Gratings (see Technology Trends).
1988 Technology Trends: Holography; Jan. 1988 (22:1), p. 113.

Imaging and Display
Airborne Tactical Reconnaissance Moves to Electro-Optics (see Military Photonics).
CCD Cameras Gain in Surveillance Work (see Photonics at Work).
CD Interactive Comes of Age (see Technology Trends).
CID Cameras: Imaging Under User Control (see Photonics at Work).
Finding Faults in Focal Plane Arrays (C.J.L. Moore, J. Hennessy, J. Bajaj, W.E. Tennant); Sept. 1988 (22:9), p. 161.
First Electronically Scanned Commercial IR Imager, The (see Photonics at Work).
High Frame-Rate CCDs Find Mid-Market Niche (Denis Heidtmann, Paul Smith, Jeff Yorsz, Bruce Baran); Mar. 1988 (22: 3), p. 127.
High-Speed Image Inspection Expands Manufacturers' Options (William H. Sawyer); July 1988 (22:7), p. 137.
Image Processing's New Vistas (Robert S. Clark, Terry Whalen); May 1988 (22:5), p. 147.
Imaging Mini-Magazine; Oct. 1988 (22:10), p. 101.
Landsat: Looking to the Brighter 1990s (see Washington Desk).
New Features in Commercial IR Imagers (see Photonics at Work).
New Horizons for IR Focal-Plane Arrays (see Infrared Technology).
Parallel Processing: A Shot in the Arm for Imaging (Prudence F. Heikkinen) ;Feb. 1988 (22:2), p. 107.
Secret Art of Frame Grabbing, The (see Technology Trends).
Tailoring CCDs for Astronomy (Randall Hylkema, Lloyd Robinson); Oct. 198 8 (22:10), p. 187.
1988 Technology Trends: Imaging; Jan. 1988 (22:1), p. 99.

Infrared Technology
First Electronically Scanned Commercial IR Imager, The (see Photonics at Work).
Infrared Gradient Index Design (see Technology Trends).
Infrared Nondestructive Testing via Thermal Injection (see Photonics at Work).
IR Adaptively Controlled Welding System, An (see Photonics at Work).
IR Window Advances: FLIRs and Beyond (Bill Cooper); Oct. 1988 (22:10), p. 149.
New Horizons for IR Focal-Plane Arrays (Steven E. Botts); July 1988 (22:7), p. 125.
Specifying Optical Components for Infrared Systems (see Designer's Handbook).
Systems Specifications for IR Optical Systems (see Designer's Handbook).
1988 Technology Trends: Infrared; Jan. 1988 (22:1), p. 129.

Insights and Enterprise
(Gary M. Kaye)
Academia and Industry: Making Stong Medicine; Oct. 1988 (22:10), p. 50.
Genesee: Focusing on a Niche; Aug. 1988 (22:8), p. 76.
Gordon Gould — Calm at the Eye of the Storm; May 1988 (22 :5), p. 74.
Laser Industry Searches for Black: Strategies for Success; July 1988 (22:7), p. 38.
Laser Industry Searches the Spectrum for Black, The; June 1988 (22:6), p. 40.
Lasers in the Chips; Sept. 1988 (22:9), p. 44.
Looking for Color in Las Vegas; Dec. 1988 (22:12), p. 38.
New Transatlantic Cables to Quadruple Capacity; Nov. 1988 (22:11), p. 40.
One Fiber Optics Company Sees the Light; Apr. 1988 (22: 4), p. 50.

Integrated Optics
Designing Integrated Optics for Foundry Fabrication (see Designer's Handbook).
Integrated Optics: Foundry Design Example (see Designer's Handbook).

Lasers
Ablation of Polymers with Excimer Lasers (see Technology Trends).
Academia and Industry: Making Strong Medicine (see Insights & Enterprise).
Designing for High-Speed Lasers (Rob Plastow); May 1988 (22: 5), p. 137.
Dye Laser's Broadening Reach, The (Bruce N. Thomson); June 1988 (22:6), p. 163.
Excitation: Meeting the Challenge with New Technology (Paul V. Salvo); July 1988 (22:7), p. 142.
Fibers in Medicine: From Light to Lasers (see Fiber Optics/ Communicatiions).
From Alpha to X-Ray: Lasers in SDI (see Military Photonics).
Getting the Laser Word to Subs (Robert S. Clark); Mar. 1988 (22:3), p. 135.
Innovative Lasers Mini-Magazine; April 1988 (22:4), p. 105.
Laser Applications Mini-Magazine; Nov. 1988 (22:11), p. 85.
Laser Assisted Production and Measurement Techniques (see Photonics at Work).
Laser-Cooling Water: The Key to Improved Reliability (Jeff Gibson); Nov. 1988 (22:11), p. 117.
Laser Industry Searches for Black: Strategies for Success (see Insights & Enterprise).
Laser Industry Searches the Spectrum for Black, The (see Insights & Enterprise).
Lasers in the Chips (see Insights & Enterprise).
Laser-Wielding Robots Tackle Automotive Industry; Nov. 1988 (22:11), p. 139.
Looking for Color in Las Vegas (see Insights & Enterprise).
Nd:YAG and Nd:Glass Lasers (see At-A-Glance Guides).
New Tunable Solid-State Laser System, A (see Technology Trends).
Nothing Zips It Up Like a Laser (David Cimma, Joseph L. Lovotti); Dec. 1988 (22:12), p. 117.
Pulsed Dye Lasers: Today's Technology, Today's Uses (see Technology Trends).
Reprographics: Laser Scanners Keep the Pace (Dudley R. Bahlman); Nov. 1988 (22:11), p. 134.
Ring Laser Gyro Technology: Headed in the Right Direction (Fred Aronowitz); Sept. 1988 (22:9), p. 135.
Small Lasers with a Big Future (Dennis Werth); Apr. 1988 (22: 4), p. 143.
Solving Medical Problems, Part I (see Designer's Handbook).
Solving Medical Problems, Part II (see Designer's Handbook).
1988 Technology Trends: Lasers; Jan. 1988 (22:1), p.81.
Ultrashort-Pulse Lasers (see Technology Trends).
Use of the Nd:YAG laser in Cutaneous Surgery, The (See Lasers in Medicine and Surgery).

Lasers in Medicine and Surgery
(Dr. Ronald A. Kirschner)
Considerations in the Design and Finish of Instruments for Laser Surgery; Feb. 1988 (22:2), p. 58.
Credentialling; Apr. 1988 (22:4), p. 86.
Highlights of the Second International Head and Neck Laser Surgery Congress; Aug. 1988 (22:8), p. 80.
Lasers and Liability; Nov. 1988 (22:11), p. 68.
Look at Some of the Products Shown at the ASLMS Meeting, A; June 1988 (22:6), p. 66.
New Altenative to Sutures or Staples, A; May 1988 (22:5), p. 78.
Our Medical Columnist Opines the Current State of the Medical Laser Market; July 1988 (22:7), p. 66.
Plume, The; Dec. 1988 (22:12), p. 66.
Report on Two International Conferences, A; Jan. 1988 (22: 1), p. 68
Ripe Accessory Market Waits Untapped for Entrepreneurs with Imagination, A; Sept. 1988 (22:9), p. 74.
Use of the Nd:YAG Laser in Cutaneous Surgery, The; Mar. 1988 (22:3), p. 80.
With the Skyrocketing Costs of Medical Care, Lasers Must Prove Their Economic Utility; Oct. 1988 (22:10), p. 80.

Machine Vision
Spatial Resolution: A Key to Machine Vision Success (see Design er's Handbook).
1988 Technology Trends: Machine Vision; Jan. 1988 (22: 1), p. 130.
Three-Dimensional Machine Vision (see Designer's Handbook).
Vision Moves in on Manufacturing (Nello Zuech); Apr. 1988 (22:4), p. 151.

Materials and Chemicals
Annual Materiais and Chemicals Report (Charles T. Troy); Apr. 1988 (22:4), p. 155.
1988 Technology Trends: Materials; Jan. 1988 (22:1), p. 132.

Military Photonics
Airborne Tactical Reconnaissance Moves to Electro-Optics (George R. Lewis); Aug. 1988 (22:8), p. 113.
From Alpha to X-Ray: Lasers in SDI (Jeff Waggoner); Aug. 1988 (22:8), p. 125.
Hands-Off Night Vision (Staff Report); Aug. 1988 (22:8), p. 121.
IR Fiber Application Update (see Fiber Optics/Communications).
Jumping the Hurdles for the Military Sale (David Lytle); Aug. 1988 (22:8), p. 109.
NASA Plans Photonics Measurements for Microgravity (see Photonics at Work).

Optical Computing
1988 Technology Trends: Optical Computing; Jan. 1988 (22:1) p. 107.

Optical Disks
CD-Interactive Comes of Age (see Technology Trends).
1988 Technology Trends: Optical Disks; Jan. 1988 (22:1), p. 105.

Optics
An Expert System Tackles Lenses (see Tangents).
Lens Design by the Numbers: A Look at Software; June 1988 (22:6), p. 151.
Optics and DoD: Who Are We Defending? (see Washington Desk).
Optics Mini-Magazine; June 1988 (22:6), p. 85.
Practical Optics (see Tangents).
Speckle and Adaptive Optics Techniques (see Technology Trends).
Taking Advantage of Reflective Aspheres (George C. Paraskos, John H. Ward); Oct. 1988 (22:10), p. 159.
1988 Technology Trends: Optics; Jan. 1988 (22:1), p. 119.

Photonics at Work
(Herbert Kaplan)
CCD Cameras Gain in Surveillance Work; June 1988 (22:6), p. 62.
CID Cameras: Imaging Under User Control; Dec. 1988 (22:12), p. 62.
First Electronically Scanned Commercial IR Imager, The; Feb. 1988 (22:2), p. 62.
FT/IR Spectrum Analyzers Go On-Line; Mar. 1988 (22:3), p. 76.
Infrared Nondestructive Testing via Thermal Injection; Sept. 1988 (22:9), p. 70.
IR Adaptively Controlled Welding System, An; May 1988 (22:5), p. 72.
Laser Assisted Production and Measurement Techniques; Nov. 1988 (22:11), p. 64.
Long-Wavelength IR Fiber Optics; Apr. 1988 (22:4), p. 82.
NASA Plans Photonics Measurements for Microgravity; Oct. 1988 (22:10), p. 76.
New Features in Commercial Infrared Imagers; July, 1988 (22:7), p. 62.

Photonics Industry
Arizona and New Mexico: No Desert for Photonics (Robert S. Clark); July 1988 (22:7), p. 131.
Fiber Optic Intensity Sensors: Commercial Hardware for Industrial Applications (see Fiber Optics/Communications).
Genesee: Focusing on a Niche (see Insights & Enterprise).
It's a Bull Market for John Bull's Products (Graham Finnie); Mar. 1988 (22:3), p. 109.
North Carolina Puts Its Money on Photonics (Jeff Waggoner); June 1988 (22:6), p. 135.
OPTCON '88: Getting It All Together Under One Roof (Charles T. Troy); Oct. 88 (22:10), p. 173.
Orlando '88 (April SPIE Conf.); Mar. 1988 (22:3), p. 157.
Photonics along Massachusetts' Routes 128 and 495: Miracle or Mirage? (Jeff Waggoner); Nov. 1988 (22:11), p. 127.
Photonics Career Bulletin, The; Apr. 1988 (22:4), p. C1 (US distribution only).
Photonics Circle of Excellence Awards; Apr. 1988 (22:4), p. 163.
Photonics Instruments Make New Inroads on the Shop Floor (Frederic M. Zweibaum, Robert J. Kanzler, Nelson E. Engborg; Dec. 1988 (22:12), p. 121.
Rochester's Bread is Photonics (Jeff Waggoner); Sept. 1988 (22:9), p. 125.
Tribute to the '88 Winners (of Photonics Circle of Excellence Awards); July 1988 (22:7), p. 158.

Positioning
Positioning Mini-Magazine; Dec. 1988 (22:12), p. 85.
Positioning Systems Swell the Mainstream (see Technology Trends).

Power Supplies
Selecting HV Power Supplies (see Technology Trends).

Reader Poll
National Referendum, The; Feb. 1988 (22:2), p. 166.
New Quarterback, The; Dec. 1988 (22:12), p. 166.
Picking a President; Oct. 1988 (22:10), p. 222.
Rendering Unto Caesar; Apr. 1988 (22:4), p. 226.
What To Do About Drugs?; Aug. 1988 (22:8), p. 166.
Where Are the Engineers?; June 1988 (22:6), p. 198.

Reader Poll Results
After the Deluge; Mar. 1988 (22:3), p. 166.
Getting Back Into Space; Jan. 1988 (22:1) p. 136.
National Referendum, The; May 1988 (22:5), p. 159.
Rendering Unto Caesar; July 1988 (22:7), p. 163.
What to Do About Drugs?; Nov. 1988 (22:11), p. 140.
Where are the Engineers?; Sept. 1988 (22:9), p. 167.

Standards
Fiber Optic Standards: More Than Technology (see Washington Desk).

Tangents
Expert System Tackles Lenses, An (Bruce H. Walker); Mar. 1988 (22:3), p. 210.
Practical Optics (Bruce H. Walker); Jan. 1988 (22:1), p. 186.

Technology Trends
Ablation of Polymers with Excimer Lasers (David J. Elliott); Feb. 1988 (22:2), p. 93.
CD-Interactive Comes of Age (John Preston); Oct. 1988 (22:10), p. 93.
Infrared Gradient Index Design (Duncan T. Moore, J. Robert Zinter); July 1988 (22:7), p. 117.
New Tunable Solid-State Laser System, A (V. Petricevic, S.K. Gayen, R.R. Alfano); Mar. 1988 (22:3), p. 95.
Novel Applications for Holographic Gratings (J. Thomas Brown rigg); Nov. 1988 (22:11), p. 81.
Positioning Systems Swell the Mainstream (Robert A. Mitchell); May 1988 (22:5), p. 129.
Pulsed Dye Lasers: Today's Technology, Today's Uses (W. Muckenheim, Lindsay Austin, Dirk Basting); June 1988 (22:6), p. 79.
Secret Art of Frame Grabbing, The (Steven J. Rapaport); Apr. 1988 (22:4), p. 137.
Selecting HV Power Supplies (John Ellis); Dec. 1988 (22:12), p. 75.
Speckle and Adaptive Optics Techniques (Jeff Allen, Bruce Baran, Larry Schmutz, Jeff Yorsz); Aug. 1988 (22:8), p. 97.
Ultrashort-Pulse Lasers (James G. Fujimoto); Sept. 1988 (22:9), p. 95.

Washington Desk
(David Lytle)
Data Rights: Through the Pentagon's Looking Glass: Mar. 1988 (22:3), p. 46.
Fiber Optics: From the Doldrums to the Future; Apr. 1988 (22:4), p. 46.
Fiber Optic Standards: More Than Technology; Feb. 1988 (22:2), p. 38.
Japan's MITI: Would It Work Here?; Nov. 1988 (22:11), p. 36.
Landsat:Looking to the Brighter 1990s; Jan. 1988 (22:1), p. 40.
Optics and DoD: Who Are We Defending?; May 1988 (22:5), p. 48.
Science Policy "Reagan Style"; Sept. 1988 (22:9), p. 40.
Science Policy: Who Will Take the Helm?; Oct. 1988 (22:10), p. 44.
Scientific Exchange: Swimming Against the Tide; June 1988 (22:6), p. 38.
SDI: Pentagon Punts Astrodome, Switches to Plan B; Dec. 1988 (22:12), p. 34
Space Station, The: Bogged Down by Earthly Concerns; Aug. 1988 (22:8), p. 48.
Trade Bill, The: Symbolism Without Substance; July 1988 (22:7), p. 34.
